

Legal Aid Resources by State

For assistance with coronavirus-specific employment issues.

This document contains a list of legal aid resources broken down by state (and by city where applicable). We have also tried to include links or resources to any coronavirus-specific pages, forms, or documents that some of these legal aid organizations have created.

Note: some resources listed in particular cities will still provide statewide services or services to surrounding counties and cities, so we encourage you to look at the resources for the entire state if you do not see your specific city listed.

We have made every effort to make sure this list of resources is accurate and error free, but it is not exhaustive. If you see any errors or have trouble with any of the links, please let us know by using this [form](#) and we will do our best to make updates or corrections as needed.
