NEW POLL: Bipartisan Majority Supports Investing in Care Infrastructure and Paid Leave

New Poll Shows that Investing in National Care Infrastructure, including Paid Leave, is Both Popular and Bipartisan Among Voters

Washington, DC — A [new poll](#) released yesterday by Invest in America and Data For Progress found that investing in our national care infrastructure is popular and widely bipartisan. The poll found that more than 70% of voters support investing in every aspect of our national care economy, and **75% of those polled support “ensuring that all workers have access to paid family and medical leave.”**

"This report reinforces that there is broad support among voters on both sides of the aisle for a permanent, national paid leave policy" **said Paid Leave for All Director Dawn Huckelbridge**. "Access to paid family and medical leave is an important piece of a successful and equitable economic recovery and critical to building back better."

[Read more](#) in the new report from Invest in America and Data for Progress.

The Paid Leave for All campaign is a growing collaborative of organizations fighting for paid family and medical leave for all working people. Learn more about Paid Leave for All [here](#).
